CAREER OBJECTIVE

I am looking for an opportunity to gain practical work experience, use what I have learned in my Software Development studies, and keep building my skills in a professional environment. I am open to internships, graduate programmes, volunteering and suitable entry-level roles.

PROFILE

I am a Software Development student at Belgium Campus with a strong focus on back-end development and databases. I build applications in C# and .NET or Java, and I design and query relational databases in SQL. I am a fast learner who learns from every mistake, and I communicate easily with people. In 2026 I led the Sign Language Club, where I taught fellow students South African Sign Language (SASL).

EDUCATION

National Diploma in Information Technology
Belgium Campus | In progress, expected completion in 2027

Higher Certificate in Digital Entrepreneurship
University of Johannesburg, through the FNB App Academy | In progress

Matriculation
Hoërskool Pretoria Wes

TECHNICAL SKILLS

Programming	C#, Java, Python, JavaScript
Frameworks	.NET, ASP.NET, Entity Framework
Web development	HTML, CSS
Databases and analytics	SQL, SQL Server, MySQL, PostgreSQL, SQLite, NoSQL, Microsoft Access, Power BI. Database design, queries and joins, stored procedures, views and indexes, data analysis.
Tools	Git, GitHub, Docker, Visual Studio, Visual Studio Code, IntelliJ IDEA, NetBeans
Practices	Object-oriented programming, data structures and algorithms, unit testing, Agile, problem-solving
Other	Computer architecture, Generative AI tools, Microsoft Word, Excel, PowerPoint, Windows

PROJECTS

Personal Portfolio Website
HTML, CSS, JavaScript | Live site | GitHub
A personal website showcasing my background, technical skills, projects and contact information, with responsive styling and a light and dark mode toggle.

Student Life Dashboard
HTML, CSS, JavaScript | Live project
An interactive dashboard that helps students manage assignments, track deadlines, monitor academic progress and calculate target grades.

TRAINING

Generative AI for Software Engineers
WeThinkCode_

FNB App Academy
Software development training, including Python and problem-solving

LEADERSHIP AND STRENGTHS

Leader, Sign Language Club (2026)
Led the club and taught fellow students South African Sign Language.

Strengths: communication, leadership, teaching, quick learner, welcoming and approachable, learns from mistakes.

Interests: guitar, reading, gaming, DIY, content creation.

LANGUAGES

English (Native), Venda (Native), South African Sign Language, Sepedi (Advanced), Afrikaans (Basic), isiZulu (Basic)
